## HOW TO INSTALL:

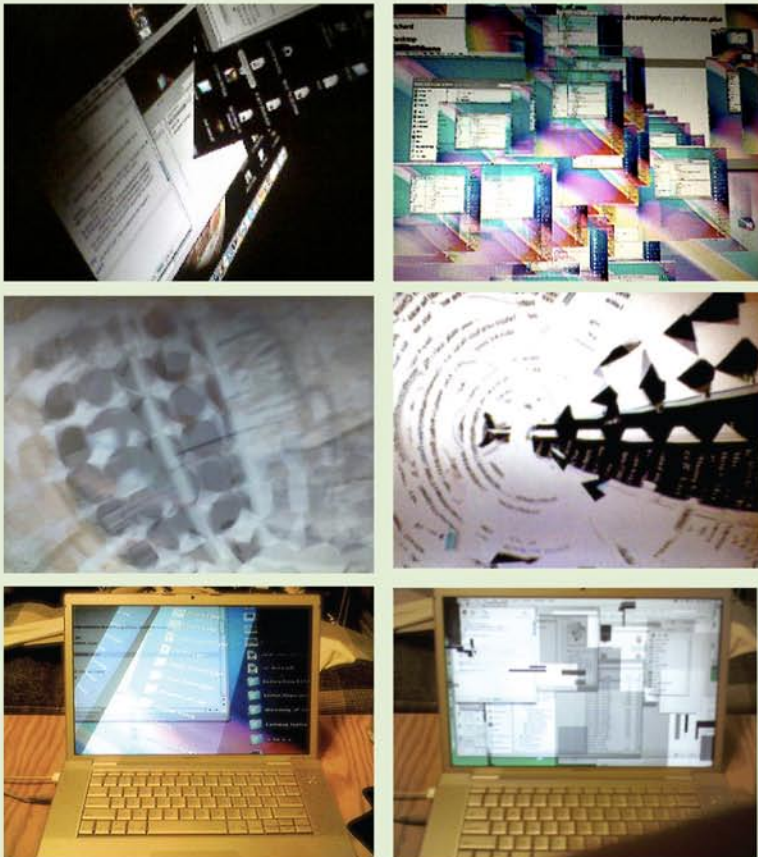

REQUIRE (Mac OSX 10.4 or higher);

- 1.) Download Dreaming of You installer (<http://richard-c.com/touch>).
- 2.) Open "dreaming\_of\_you.dmg"
- 3.) Install "dreaming-install.pkg"
- 4.) Install "dreaming.wdgt"

## HOW TO UNINSTALL:

- 1.) Open "dreaming\_of\_you.dmg"
- 2.) Open "uninstall.app" and follow instructions

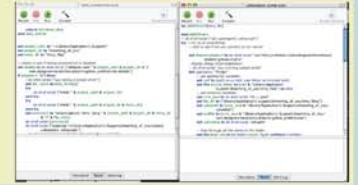

## EXAMPLE DREAMS:

## CLIENT:

SCRIPT:

- Automatically takes screenshots of client's computer and uploads them to a web server.

SCREENSAVER:

- Downloads screenshots from webserver and visualizes them as client's computer's dreams.

PREFERENCE WIDGET:

- Allows client to toggle private mode, which temporarily disables taking screenshots.
- Shows statistical information.

Status: *Analyzing*  
Dreaming Since: 2007-07-31  
Dream Count: 25  
[Toggle Private Mode](#)

## SERVER:

- Receives uploaded screenshots.
- Feeds these screenshots back to client screensavers.
- Also stores meta information about each upload such as date taken and username.
